

Press Release

September 15th, 2022
Orlando, Florida

Some moments in life are pure magic! We are excited to bring to you and your family the opportunity to create a new core memory at Santa's Enchanted Workshop opening in Orlando, Florida. Enjoy a one-hour, interactive personal visit with Santa in his enchanted workshop.

Witness the wonder as your children experience the most incredible visit with Santa they've ever had. In this private setting, your children will have the chance to share their Christmas wish list with Santa and find their name on his nice list! They will also share milk and cookies, learn about the North Pole, help in his workshop, read a story, and enjoy other sweet moments with our beautiful Saint Nick.

As professional photographers and artists, we capture these magical moments of your children with Santa and turn them into heirloom art pieces. A great deal of care is taken to create these beautiful art pieces that will become more precious to you as your little ones grow.

To schedule your visit with Santa, call 321-775-4001 or reach out to us via our website SantasEnchantedWorkshop.com. We are located at the Lake Buena Vista Factory Stores at 15757 SR 535, in Orlando just minutes from all the major theme parks.
